

UAV-WORKSHOP

This two-day workshop is a joint initiative of the NERC Earth Observation Technology Cluster Programme and the RSPSoc UAV Special Interest Group.

The aims are to:

- coordinate and focus interest in platform developments
- discuss scientific applications of UAV-derived data
- stimulate sensor development
- discuss safety and regulatory issues for UAVs

Papers, posters and demonstrations of UAV platforms or data processing technology are welcome.

Places are limited to 50 participants and so early registration is encouraged.

Activities designed to facilitate knowledge exchange will include workshops, demonstrations and seminars.

Two-day workshop

7-8 July 2011

Durham University

Call for Abstracts

One page abstracts should be emailed to rspsoc@rspsoc.org by 1 June 2011

Presentations, Posters, Demonstrations
